Section 2:Supply Chain Security Readiness	Code	<u>Comments</u>
(1) Does the preparer of this form truly believe that the facility meets the requirements for protecting the supply chain against illegal contraband, weapons of mass destruction, human trafficking, etc.?		
(2) Does the preparer of this form truly believe that there are policies and procedures in use that ensures that any cargo that is put on a trailer contains only the manifested goods and nothing more?		
(3) As part of Federal-Mogul's supply chain, it is feasible that a member of a governmental supply chain security agency could visit your facility as part of the validation process. Is your facility prepared and willing to cooperate in the validation process?		
(4) As part of the validation process, documentation will be reviewed. Will this documentation be made available for review upon request?		
Section 3: Physical Security	Code	<u>Comments</u>
(1) Are there documented procedures outlining the requirements for securing facilities to prevent unlawful or unauthorized entry?		
(2) Are all buildings constructed of materials that resist unlawful entry and protect against outside intrusion? Describe.		
(3) After normal working hours, is an intrusion detection system (alarm system) used? If no, how is unauthorized entry detected?		
(4) Is there secure perimeter fencing around buildings and warehouses? If not, describe how it is secured.		
(4.a) Are fence access points (gates) manned and/or monitored? Describe.		
(4.b) Are fence access points (gates) locked during non-working hours? Describe.		
(4.c) Are separate gates used for employees, for visitors, and for truck/commercial traffic? Describe.		
(5) Are parking areas for private vehicles separate from the shipping, loading, and cargo areas? Describe.		
(6) Are CCTV (closed circuit television) cameras used?		
(6.a) Does the CCTV system cover interior and exterior areas?  Describe.		
(6.b) Is recorded CCTV video retained for 45-days or longer?  Describe.		
(6.c) Who monitors live video? Recorded video?		
(7) Is lighting inside and outside the facility, including parking areas, adequate to detect and deter unlawful activity? Describe.		
(8) Are there locking devices on all external doors, all internal doors (as required), all perimeter windows, and all fence gates? Describe.		
(9) Are there internal and external communication procedures in place to contact security personnel and/or local police? Describe.		
(10) Are goods destined for international locations segregated and marked within the warehouse? Describe.		
(10a) Is the segregated and marked product in a labeled and separate area? Describe.		
(11) Are there designated security personnel or CCTV cameras in the cargo area? Describe.		
Section 4: Access Controls	<u>Code</u>	<u>Comments</u>
(1) Is access to the facility for employees, visitors, drivers, vendors		
and contractors controlled at all times? Describe.		

(2) Are employees, visitors, drivers, vendors and contractors		
positively identified prior to entering the facility? Describe methods		
(i.e. badges, sign-in log, etc.)		
(3) Is access to shipping & receiving area, loading docks, etc.		
restricted to authorized personnel? Describe.		
(4) Are there documented procedures to challenge unauthorized or unidentified persons? Describe.		
(5) Are there procedures for controlling access to the facility for truck		
drivers? Describe where they wait and whether the waiting area is		
separate from cargo areas.		
(6) Is the packaging (i.e. placing goods/items in a box) area restricted		
only to those employees assigned to work there? Describe.		
(7) Is the packing (i.e. placing boxes/cartons on pallets) area		
restricted only to those employees assigned to work there? Describe.		
(8) Is the shipping/receiving (i.e. loading/unloading conveyance) area		
restricted only to those employees assigned to work there?		
Describe.		
(9) Are there designated security personnel or security devices in the		
packaging (i.e. placing goods/items in a box) area? Describe.		
(10) Are there designated security personnel or security devices in		
the packing (i.e. placing boxes/cartons on pallets) area? Describe.		
(11) Are there designated security personnel or security devices in		
the shipping/receiving (i.e. loading/unloading conveyance) area?		
Describe.		
Section 5: Procedural Security	Code	Comments
(1) Are procedures documented and in use to protect against		
unmanifested or illegal material being introduced into the supply		
chain? Describe.		
(2) De controle include the proper marking counting and		
(2) Do controls include the proper marking, counting, and
