

New and improved FP Diesel® SMARTAUTHENTICATION™ Security Label

To protect the integrity of the FP Diesel® brand, we implement a new and improved SmartAuthentication™ hologram global security label.

The advanced brand protection solution ensures a FP Diesel® product is genuine by enabling quick authentication anywhere in the world, any time. The label features the DRiV® logo as well as additional security features. FP Diesel® products with the current SmartAuthentication™ label can still be scanned to verify the product is genuine.

VERIFY THAT YOUR FP DIESEL® PARTS ARE GENUINE

Visual Inspection

1. Check your package is undamaged and properly sealed
2. Locate the holographic security label on the carton and check the general appearance of the label.
3. Each security label carries his **unique Serial Identification Code**
4. Move the carton and holographic label top/bottom to animate
5. The animation should include movement and color in the elements

FOLLOW THE EASY STEP-BY-STEP INSTRUCTIONS FOR ON-LINE VERIFICATION

Via Smartphone

1. Download the SmartAuthentication™ app from **Google Play** or **Apple App Store**
2. Hold your Smartphone Camera above the holographic label. Your phone will automatically photograph the label to verify the product is genuine
3. The serial number can also be entered manually in the app
4. Follow app instructions to verify the hologram and check ID number

Any suspect FP Diesel® product should be reported to your local DRiV® contact or our Global Brand Protection Team at:
brandprotection@DRiV.com
