

New Jurid® Commercial Vehicle Brake Catalogue

Provides Enhanced EMEA Coverage

Complete range of OE-quality CV brake components, extensive support network and new, easy-to-navigate catalogue now available

Kontich, Belgium, May 4th, 2018. Federal-Mogul Motorparts today announced the launch of a new catalogue for its range of Jurid® commercial vehicle (CV) braking products. The catalogue covers all braking requirements, including leading coverage for the EMEA CV parc for brake pads, brake linings and discs, from just over 650 part numbers. The range also includes wear indicators, accessories and rivets, providing a comprehensive package of OE-quality spare parts.

Jurid also operates an extensive technical support network for customers, with Trouble Tracers and regular bulletins helping aftermarket technicians identify and solve common braking issues. The catalogue is split into easy-to-navigate sub-sections for vans, trucks, buses, trailers and brake manufacturers to provide ease of model lookup.

“Not only does the new catalogue incorporate the significant expansion of the Jurid range, its updated structure has been designed to make the lives of our customers easier, speeding up part lookup and reducing the chance of incorrect ordering,” said Laura Fasoli, Braking Product Manager, Federal-Mogul Motorparts, EMEA. “The evolving format of our catalogues also demonstrates Federal-Mogul Motorparts’ commitment to continuous improvement, which is complemented by our extensive support network that aims to communicate the latest tips, techniques and vital information to the aftermarket.”

The Jurid range provides OE-quality brake components and features many novel technologies. For example, Jurid Metlock® technology enlarges the binding surface between the friction material and brake pad back plate to provide improved shearing resistance. The company’s reinforced Greencoating is another revolutionary technology that distributes heat evenly through the brake pad and disc. It prevents disc hot spots, decreases the chance of cracking, reduces the risk of premature disc wear and helps keep operating costs down.

The new catalogue can be ordered from Jurid's Customer Service team or online at www.jurid.com. Customers will be informed of range updates via TecDoc or direct mail, and the catalogue features an innovative Buyers' Guide section that includes 1:1 size pad drawings, 3D lining sketches and more information about wear indicators, discs and rivets.

About Federal-Mogul

Federal-Mogul LLC is a leading global supplier of products and services to the world's manufacturers and servicers of vehicles and equipment in the automotive, light, medium and heavy-duty commercial, marine, rail, aerospace, power generation and industrial markets. The company's products and services enable improved fuel economy, reduced emissions and enhanced vehicle safety.

Federal-Mogul operates two independent business divisions, each with a chief executive officer reporting to Federal-Mogul's Board of Directors.

Federal-Mogul Motorparts sells and distributes a broad portfolio of products through more than 20 of the world's most recognized brands in the global vehicle aftermarket, while also serving original equipment vehicle manufacturers with products including braking, wipers and a range of chassis components. The company's aftermarket brands include ANCO[®] wipers; Beck/Arnley[®] premium OE quality parts and fluids; BERU^{®*} ignition systems; Champion[®] lighting, spark plugs, wipers and filters; Interfil[®] filters; AE[®], Fel-Pro[®], FP Diesel[®], Goetze[®], Glyco[®], National[®], Nüral[®], Payen[®], Sealed Power[®] and Speed-Pro[®] engine products; MOOG[®] chassis components; and Abex[®], Ferodo[®], Jurid[®] and Wagner[®] brake products and lighting.

Federal-Mogul Powertrain designs and manufactures original equipment powertrain components and systems protection products for automotive, heavy-duty, industrial and transport applications.

Federal-Mogul was founded in Detroit in 1899 and maintains its worldwide headquarters in Southfield, Michigan. The company employs nearly 55,000 in 24 countries. For more information, please visit www.FMmotorparts.com.
